EDUCATION

BCA (5th Semester) -- CGPA : 9.1+, Invertis University, Bareilly, Uttar Pradesh 2024 – 2027 | Bareilly, Uttar Pradesh
12th Standard -- 82% (CBSE), Royal High's Public School 2023 – 2024
10th Standard -- 79% (CBSE), Royal High's Public School 2021 – 2022

SKILLS

Technical Skills

- **Languages** : C, C++, C#, Python, JavaScript
- **Frontend** : HTML, CSS, React.js, Bootstrap
- **Backend** : Node.js, Express.js, FastAPI
- **Databases** : SQL, MongoDB
- **Concepts** : DSA, DBMS, Operating Systems, Cloud Computing
- **Tools & IDE's** : MS Office, Git, GitHub

Core Competencies

- Takes ownership of tasks from planning through delivery
- Adapts quickly to new tools and problems under time constraints
- Communicates progress and blockers clearly in team settings
- Stays composed and methodical when debugging or troubleshooting under pressure

INTERNSHIP EXPERIENCE

AI Deployment & Automation Intern — EduSkills Academy

Virtual | Jun 2026 – Aug 2026 | 8 Weeks

- Explored AI deployment, FastAPI, Docker, CI/CD, and MLOps workflows.
- Worked with LangChain, LlamaIndex, RAG, and AI agent workflows.
- Completed applied AI and capstone projects focused on RAG and automation.

Python Full Stack Developer Intern — EduSkills Academy

Virtual | Jan 2026 – Mar 2026 | 10 Weeks

- Developed practical foundations in web development using HTML, CSS, Bootstrap, JavaScript, jQuery, and Python.
- Worked with Django for dynamic web applications, including models, views, templates, routing, and authentication.
- Applied SQL/MySQL database management and Git/GitHub version-control practices through structured assignments and project work.

PROJECTS

AI Resume Analyzer 🔗

Python | FastAPI | Gemini AI | pdfplumber

- Developed a full-stack resume analyzer that parses PDF resumes and generates AI-driven feedback using Gemini AI
- Extracted structured candidate data (skills, education, experience) from unstructured PDF text using pdfplumber
- Exposed 4+ REST API endpoints via FastAPI for resume upload, parsing, and feedback generation

Smart Expense Tracker 🔗

Next.js | Node.js | Express.js | MongoDB | Tailwind CSS | Groq AI

- Architected a secure full-stack expense tracker with JWT-based authentication and email verification
- Integrated Groq AI to generate personalized spending insights from user transaction data
- Deployed the application across Vercel, Render, and MongoDB Atlas for a fully cloud-hosted stack

Multi-PDF RAG Assistant 🔗

FastAPI | FAISS | Groq AI | React | HuggingFace API

- Engineered a Retrieval Augmented Generation (RAG) pipeline to chunk, embed, and index PDF content for natural-language querying
- Designed a FAISS-based semantic search layer to retrieve relevant context and enable source-cited AI answers
- Resolved a production memory bottleneck by shifting embeddings from local inference to an external API

CERTIFICATE

- **Google AI Essentials Professional Certificate – Coursera** — Issued by Google via Coursera • Completed training in generative AI, prompt engineering, responsible AI, and practical AI applications.
- **IBM Certified | Deloitte Australia - Cyber Job Simulation** — From Forage
- **Certified in LLM fundamentals** — Under NASSCOM FutureSkills Prime
- **Python Full Stack Internship** — With practical web development experience under EduSkills Academy
- **Artificial Intelligence & Automation** — Completed a 10-week AI Deployment & Automation virtual internship at EduSkills Academy.
